

Onboarding and setup

Consent, demographics, VR setup, breathing practice

Repeated condition loop

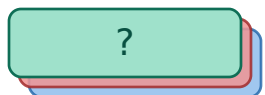

Black-screen control Symmetric VR Asymmetric VR

Controller-derived rendered-feedback synchrony (PLV) per block

6 counterbalanced orders; N=47 observed, N=39 selected for primary analyses

e.g. , , ...

Session 1

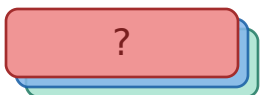

10 min box breathing

11D-ASC, experience tracers,
pictographic self-scales

Session 2

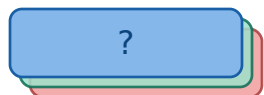

10 min box breathing

11D-ASC, experience tracers,
pictographic self-scales

Session 3

10 min box breathing

11D-ASC, experience tracers,
pictographic self-scales

Pre-unmasking manipulation-awareness questionnaire

12 feature-detection probes (symmetry, neutral, sham)

End of study
